# passionate by nature

Immaginiamo soluzioni, abbiniamo colori, plasmiamo forme.  
Ogni giorno cambiamo senza fermarci mai.  
Ascoltiamo la ragione, ma è la passione che guida le nostre scelte  
per superare la linea delle aspettative.  
Ciascun prodotto è unico ed è il riflesso di ciò che siamo: persone  
che lavorano con entusiasmo unendo organizzazione e intuizione.

Nous imaginons des solutions, nous associons des couleurs, nous modelons des formes. Chaque jour nous changeons, sans jamais nous arrêter.  
Nous écoutons la raison, mais c'est la passion qui dicte nos choix pour franchir la ligne des attentes.  
Chaque produit est unique et le reflet de ce que nous sommes: des personnes qui travaillent avec enthousiasme, alliant organisation et intuition.

Wir erarbeiten Lösungen, stimmen Farben ab und gestalten Formen. Jeden Tag erneuern wir uns ohne Pause.  
Wir sind rational und doch werden unsere Entscheidungen durch unsere Leidenschaft geprägt, die unsere Entscheidungen über alle Erwartungen hinaus beeinflusst.  
Jedes Produkt ist einzigartig und spiegelt unseren Geist wider: wir arbeiten voller Enthusiasmus und verbinden Organisation mit Eingebung.

Imaginamos soluciones, combinamos colores, plasmamos formas. Cada día cambiamos sin detenernos nunca.  
Escuchamos la razón, pero es la pasión que guía nuestras decisiones para superar la línea de las expectativas.  
Cada producto es único y es el reflejo de lo que somos: personas que trabajan con entusiasmo uniendo organización e intuición.

We're always thinking up solutions, forms and matching colours.  
Every day, we're changing, without ever stopping.  
We listen to reason, but it is passion that guides our choices to surpass expectations.  
Every product is unique and reflects what we are: a team that works enthusiastically, combining organization and intuition.

# Injection moulding

it

Durante il ciclo di stampaggio a iniezione, il materiale scende dalla tramoggia, viene fuso e poi iniettato nell'impronta dello stampo grazie ad un pistone che scorre nella camera di fusione. Il prodotto viene estratto dopo una fase di raffreddamento che lo solidifica, plasmandolo secondo la forma dello stampo.

fr

Pendant le cycle de moulage, le matériau qui descend de la trémie est fondu, puis injecté dans l'empreinte du moule grâce à un piston qui se déplace dans la chambre de fusion.  
Le produit est extrait après une phase de refroidissement qui le solidifie et lui donne la forme du moule.

de

Während des Pressvorgangs läuft das Material aus dem Trichter, wird geschmolzen und dann mit Hilfe eines Kolbens, der sich in der Schmelzkammer bewegt, in die Form gespritzt. Im Anschluss an die Abkühlphase, in der das Teil in der Gestalt, die ihm die Form verleiht, erstarrt, wird der Artikel entnommen.

es

Durante el ciclo de moldeado, el material baja de la tolva, se funde y luego se inyecta en la forma del molde gracias a un pistón que se mueve en la cámara de fusión. El producto se extrae después de una fase de enfriamiento que lo solidifica, dándole forma según las líneas del molde.

en

During the moulding cycle, the material descends from the hopper, is made molten and then injected into the mould impression by a piston that slides into the melting chamber.  
The product is extracted after a cooling phase that solidifies it, shaping it to the mould.

## Rotational moulding

**it**

Le forme sono forgiate da stampi in alluminio dove il materiale in polvere viene inserito, poi riscaldato e fuso all'interno di un forno. Durante la fase di riscaldamento, il ciclo di stampaggio prevede una rotazione lenta, per distribuire il materiale sulle pareti in modo uniforme. Successivamente, il prodotto viene raffreddato, estratto dallo stampo e rifinito manualmente.

**fr**

Les formes sont créées à partir de moules en aluminium où le matériau en poudre est introduit, puis chauffé et fondu dans un four. Pendant la phase de chauffage, le cycle de moulage effectue une rotation lente pour distribuer uniformément le matériau sur les parois.

Le produit est ensuite refroidi, extrait du moule et fini à la main.

**de**

Die Formen werden aus Aluminium geschmiedet und mit dem pulverförmigen Material gefüllt, das dann in einem Ofen erhitzt und geschmolzen wird. Während der Phase des Erhitzens sieht das Verfahren ein langsames Rotieren vor. Auf diese Weise wird das Material gleichmäßig an den Wänden verteilt. Anschließend wird das Teil abgekühlt, aus der Form entnommen und von Hand fein bearbeitet.

**es**

Las formas se forjan a partir de moldes de aluminio donde se introduce el material en polvo, se calienta y se funde en un horno. Durante la fase de calentamiento, el ciclo de moldeado implica una rotación lenta para distribuir el material uniformemente sobre las paredes.

A continuación, el producto se enfriá, se retira del molde y se termina manualmente.

**en**

The shapes are forged from aluminium moulds where the powder material is inserted, then heated and melted inside an oven. During the heating phase, the moulding cycle involves a slow rotation to distribute the material evenly on the walls. The product is then cooled, removed from the mould and hand-finished.

PASSIONATE BY NATURE

### Ci sta a cuore il verde.

Greener è la linea di vasi realizzati interamente in plastica riciclata per rispondere all'esigenza di un pianeta più pulito e offrire a chi ama la natura la possibilità di essere davvero sostenibile.

### Le vert nous tient à cœur.

Greener est la ligne de pots entièrement réalisés en plastique recyclé, qui répond à l'exigence d'une planète plus propre et offre à tous ceux qui aiment la nature la possibilité de participer au développement durable.

### Grün liegt uns am Herzen.

Greener ist eine Kollektion, die komplett aus recyceltem Kunststoff besteht und so auf die Notwendigkeit einer saubereren Welt eingeht und denjenigen, die die Natur lieben, die Möglichkeit gibt wirklich nachhaltig zu sein.

### Nos preocupamos por el verde.

Greener es la línea de macetas fabricadas totalmente en plástico reciclado para lograr el objetivo de un planeta más limpio y dar a los amantes de la naturaleza la oportunidad de ser verdaderamente sostenibles.

### Because we care about green.

Greener is the line of vases made entirely of recycled plastic to meet the needs for a cleaner planet and offer nature lovers the opportunity to be truly sustainable.

22  
23

### La sfida di una doppia sostenibilità.

Con Greener sei "più verde" due volte. Perché riutilizzi la plastica, una risorsa preziosa, ed entri a far parte di una comunità di persone che rispetta l'ambiente e adotta soluzioni per mantenerlo e proteggerlo, coltivando il bene del mondo.

### Le défi d'une double durabilité.

Avec Greener vous êtes deux fois « plus vert ». Parce que vous réutilisez le plastique, une ressource précieuse, et que vous faites partie d'une communauté de personnes qui respectent l'environnement et adoptent des solutions pour l'entretenir et le protéger, en cultivant le bien du monde.

### Die Herausforderung der Nachhaltigkeit.

Mit Greener sind Sie zweifach umweltbewusst, denn Sie verwenden den Kunststoff, der eine wertvolle Ressource darstellt, wieder und zählen zu den Menschen, die die Umwelt achten und Lösungen nutzen, diese zu schützen und so das Wohl der Erde pflegen.

### El reto de la doble sostenibilidad.

Con Greener eres dos veces «más verde». Porqué reutilizas el plástico, un recurso precioso, y entras a formar parte de una comunidad de personas que respetan el medio ambiente y adoptan soluciones para mantenerlo y protegerlo, cultivando el bien del mundo.

### The challenge of double sustainability.

With Greener, you're "greener" twice. To re-use the precious resource of plastic and become part of a community of those who respect the environment and adopt solutions to maintain and protect it, cultivating the good of the world.

### La plastica ha un'anima buona e "più verde".

Essere "greener", per noi, significa rinunciare a produrre plastica nuova per utilizzare quella che è già a nostra disposizione. Perché la plastica è uno dei materiali più resistenti e longevi al mondo e bottiglie, flaconi, imballaggi, sacchetti, tappi e tanti altri prodotti possono diventare oggetti nuovi e utili, belli e performanti.

### Le plastique a un bon esprit et « plus vert ».

Pour nous, être « greener » signifie renoncer à produire du plastique neuf pour n'utiliser que celui qui est déjà à notre disposition. Parce que le plastique est l'un des matériaux les plus résistants et durables au monde et que les bouteilles, les flacons, les emballages, les sachets, les bouchons et quantité d'autres produits peuvent devenir des objets nouveaux et utiles, beaux et performants.

### Kunststoff hat ein besseres und "grüneres" Gewissen.

"Greener" zu sein bedeutet für uns von der Herstellung von neuem Kunststoff abzusehen und den Kunststoff zu verarbeiten, der uns bereits zur Verfügung steht. Denn Kunststoff ist eines der widerstandsfähigsten und langlebigsten Materialien der Erde und aus Flaschen, Flakons, Verpackungen, Tüten, Deckel und vielen weiteren Produkten können neue praktische, schöne und leistungsfähige Gegenstände werden.

### El plástico tiene un alma buena y «más verde».

Ser «greener», es decir más verdes, para nosotros, significa dejar de producir plástico nuevo para utilizar el que ya tenemos a nuestra disposición. Porque el plástico es uno de los materiales más resistentes y duraderos del mundo y las botellas, frascos, embalajes, bolsas, tapas y muchos otros productos pueden convertirse en objetos nuevos y útiles, hermosos y de alto rendimiento.

### Plastic has a good and a "greener" soul.

For us, being "greener" means giving up producing new plastic to use what is already available to us. Because plastic is one of the most resistant and durable materials in the world and bottles, packaging, bags, stoppers and many other products can become new and useful objects that are beautiful and high-performing.

Dare alla plastica una seconda vita è il nostro impegno per l'ambiente, e per tutti gli esseri viventi. Una promessa che non si esaurisce in un vaso, ma favorisce lo sviluppo di un'economia dinamica, circolare, potenzialmente infinita.

Donner au plastique une seconde vie est notre engagement pour l'environnement et pour tous les êtres vivants. Une promesse qui ne s'achève pas avec un pot, mais qui favorise aussi le développement d'une économie dynamique, circulaire, potentiellement infinie.

Unser Engagement für die Umwelt und alle Lebewesen besteht darin, dass wir Kunststoff zu einem zweiten Leben verhelfen. Es handelt sich um ein Versprechen, das sich nicht auf einen Blumentopf beschränkt, sondern einen dynamischen Wirtschaftskreislauf, mit unendlich großem Potential, fördert.

Dar al plástico una segunda vida es nuestro compromiso con el medio ambiente y con todos los seres vivos. Una promesa que no se agota en una maceta, sino que favorece el desarrollo de una economía dinámica, circular y potencialmente infinita.

Giving plastic a second life is our commitment to the environment and to all living things. A promise that does not end in a pot but favours the development of a dynamic, circular and potentially-infinite economy.

# Avvertenze

# Warnings

**1. Tutti i prodotti sono utilizzabili sia negli spazi interni che esterni.**

The entire range of products can be used indoors or outdoors.

**2. Non posizionare l'articolo su una superficie irregolare o inclinata, per evitare movimenti incontrollati.**

Do not position the product on an uneven or sloping surface; this will avoid uncontrolled movements.

**3. Tenere l'articolo lontano da fonti di calore.**

Keep the article away from heat sources.

**4. Gli articoli con pareti dritte realizzati con la tecnica "rotazionale" possono presentare delle non planarità (warpage) che potrebbero accentuarsi qualora il prodotto venisse esposto alla luce diretta del sole.**

Products with straight walls made using the rotational moulding system may show some warping that could become more obvious if the pot is exposed to direct sunlight.

**5. Pulire gli articoli con una spugna bagnata con acqua e detergente liquido neutro. Risciacquare con un panno bagnato. Si raccomanda di evitare l'uso di panni abrasivi e di detergenti contenenti solventi e/o alcool etilico. In caso di sporco ostinato richiedere il detergente Euro3plast.**

Clean the articles with a damp cloth and neutral liquid detergent. Rinse with a clean damp cloth. Do not use abrasive cloths or cleaning agents containing solvents and/or ethyl alcohol. For stubborn stains use the special Euro3plast detergent.

## LIGHTS

**1. Tutte le lampade presenti in questo catalogo dispongono di un kit luce già installato.**

All the lamps included in this catalogue are supplied with a light kit already installed.

**2. In caso di sostituzione della lampadina, assicurarsi che la presa di corrente sia scollegata.**

Before replacing a bulb make sure that the power plug has been disconnected.

**3. Collegare la spina dell'apparecchio in una presa collocata in un luogo protetto dalla pioggia e dagli spruzzi d'acqua.**

Connect the plug of the appliance to a power outlet that is located in a sheltered position, protected from rain and water splashes.

**4. L'articolo "Sfera a sospensione" che monta il kit a sospensione (A4596), se utilizzato all'esterno, dovrà essere posizionato in luogo coperto.**

If used outdoors, the article "Suspended light sphere" that mounts the suspension kit (A4596) must be installed in a covered context.

**5. Se il cavo flessibile esterno di questo apparecchio viene daneggiato, deve essere sostituito esclusivamente dal costruttore, dal suo servizio di assistenza, o da personale qualificato equivalente, al fine di evitare pericoli.**

If the external flexible cable of this appliance is damaged it must be replaced by either the manufacturer, the manufacturer's customer assistance service or by equivalent qualified personnel, in order to prevent possible hazards.

**6. Nelle versioni sprovviste di interruttore sul cavo di alimentazione, collegare la spina dell'apparecchio sotto una presa comandata da interruttore.**

For models that are not equipped with an inline on/off switch, connect the plug of the appliance to a switch controlled outlet.

**7. Si sconsiglia l'utilizzo e/o l'installazione dei prodotti luminosi su superfici/pavimentazioni non solide (sabbia, terra, erba, sassi, ghiaia, ecc.). Inoltre, i prodotti luminosi non dovranno essere installati in prossimità (adiacenti e sullo stesso piano) di piscine e/o ambienti d'acqua.**

220  
221

The use and/or installation of illumination devices on instable surfaces/floors or pavement (sand, soil, grass, stones, gravel, etc.) is discouraged. Neither must illumination devices be installed near (adjacent to or on the same level as) swimming pools and/or other water environments.

**8. Gli oggetti luminosi, se allestiti con terra, piante e/o vasi, dovranno essere fissati al suolo con i nostri sistemi di ancoraggio, ove previsti.**

If light articles are set up with soil, plants and/or vases, they must be secured to the ground with our anchoring systems, where provided.

**9. I vasi light outdoor sono dotati di fori di drenaggio all'interno e sul fondo del vaso, oppure di canaletta di scolo. Entrambe le soluzioni servono per favorire la fuoriuscita dell'acqua in eccesso.**

The light outdoor pots have drainage holes inside and on the base, or a drainage tube. Both solutions are to allow excess water to drain away.

**10. Euro3Plast S.p.A. declina ogni responsabilità per danni causati a cose o a persone da un uso improprio del prodotto.**

Euro3Plast S.p.A. cannot accept liability for any damage caused to things or persons by an incorrect use of the product.

# Kebe Greener utilizzo Kebe Greener suggestion

- 1** Valutare l'impiego o meno delle ruote in dotazione da applicare nella direzione desiderata all'interno degli appositi alloggiamenti sul fondo del prodotto quindi premere fino al completo incastro. Per rimuovere le ruote, tirare verso l'alto fino a far uscire il perno dalla sede. Verificare il corretto assemblaggio tra i 2 elementi plastici (interno/esterno) premendo gli agganci presenti sul fondo interno del container.

Determine whether or not to use the supplied wheels to be fitted in the desired direction inside the recesses on the bottom of the product, then press down until they fully engage. To remove the wheels, pull upwards until the pin comes out of the housing. Check the correct assembly between the 2 plastic parts (inside/outside) by pressing the hooks on the inside bottom of the container.

Déterminez si vous voulez ou non utiliser les roulettes fournies. Si oui, ces dernières doivent être montées dans la direction souhaitée dans les logements prévus à cet effet sur le fond du produit. Pour finir, appuyez jusqu'à ce qu'elles soient bien encastrées. Pour retirer les roulettes, tirez vers le haut jusqu'à faire sortir l'axe du logement. Vérifiez le bon assemblage des 2 éléments en plastique (intérieur/extérieur) en appuyant sur les systèmes d'accrochage présents sur le fond intérieur du récipient.

Sofern die mitgelieferten Rollen montiert werden sollen, sind diese in der gewünschten Richtung an den entsprechenden Stellen am Boden des Artikels anzubringen und müssen dabei vollständig einrasten. Wenn die Rollen abgenommen werden sollen, müssen diese nach oben herausgezogen werden. Es muss sichergestellt werden, dass die beiden Plastikteile (innen/außen) korrekt montiert worden sind, wozu die innen am Boden des Kastens befindlichen Kupplungen gedrückt werden müssen.

Para utilizar las ruedas entregadas colocarlas en la dirección deseada adentro de los alojamientos en la parte inferior del producto haciendo presión hasta que queden totalmente encajadas. Para quitar las ruedas, tire hacia arriba hasta que el perno salga de su alojamiento. Compruebe el correcto ensamblaje entre los 2 elementos de plástico (interior/exterior) presionando los ganchos en el fondo interior del macetero.

## 2 Indoor

Per utilizzo indoor applicare i tappi rossi nei fori presenti sul fondo.  
For indoor use, insert the red caps into the holes on the bottom.  
Pour une utilisation en intérieur, insérez les bouchons rouges dans les trous situés au fond.  
Para uso en interiores, inserte los tapones rojos en los agujeros situados en el fondo.  
Für die Nutzung im Innenbereich die roten Kappen in die Löcher am Boden einsetzen.

## Outdoor

Per utilizzo outdoor NON applicare i tappi rossi.  
For outdoor use do not plug with the red caps.  
Pour utilisation extérieure, ne pas appliquer les bouchons rouges.  
Beim Einsatz im Außenbereich die Überlauflöcher bitte nicht mit den roten Verschlusskappen verschließen.  
Para uso en exterior no coloque los tapones rojos.

### 3

Per un migliore utilizzo è preferibile allestire la cassetta o il vaso kebe come segue:  
A - posizionare uno strato di tessuto non tessuto (TNT) sul fondo interno del container.  
B - inserire uno strato di circa 3/4 cm di argilla espansa.  
C - posizionare un ulteriore strato di tessuto non tessuto (TNT) sopra l'argilla espansa.  
D - allestire con terriccio di buona qualità e piante.  
E - prima del completo riempimento del terriccio applicare nelle apposite sedi i ferri in dotazione al fine di evitare deformazioni (kebe 100). **L'eventuale movimentazione della cassetta o vaso va fatta trascinando o spingendo l'articolo dagli angoli (non dalla parte centrale dei lati).**

To optimise use, we recommend setting up the planter or kebe pot as follows:

A - place a layer of non-woven fabric on the inside bottom of the container.  
B - add a layer of 3-4 cm of expanded clay.  
C - place another layer of non-woven fabric on top of the expanded clay.  
D - add good-quality potting soil and the plants.  
E - before filling in the topsoil completely, insert the rods (supplied) into their dedicated places to prevent deformation (kebe 100). **Any handling of the box or pot should be done by dragging or pushing the item from the corners (not from the middle of the sides).**

Pour une meilleure utilisation de la jardinière ou du pot kebe, procédez comme suit :

A - Posez une couche de tissu non tissé (TNT) sur le fond intérieur du récipient.  
B - Faites-y une couche d'argile expansée d'environ 3 à 4 cm.  
C - Posez une autre couche de tissu non tissé (TNT) sur l'argile expansée.  
D - Mettez du terreau de bonne qualité, puis vos plantes.  
E - Avant de remplir complètement, appliquez les tiges en fer fournies aux endroits prévus afin d'éviter les déformations (kebe 100). **Toute manipulation de la jardinière ou du pot doit se faire en tirant ou en poussant l'article par les coins (et non pas par le milieu des côtés).**

3 Für eine optimale Nutzung, sollten die Pflanzkästen bzw. Pflanzkübel der Serie kebe folgendermaßen gefüllt werden:

A - Zunächst den Boden des Kastens mit einer Lage Vliesstoff auslegen.  
B - Dann eine etwa 3-4 starke Schicht Blähton einfüllen.  
C - Dann die Blähtonschicht mit einer weiteren Lage Vliesstoff bedecken.  
D - Das Gefäß schließlich mit Qualitätsblumenerde befüllen und bepflanzen.  
E - Bevor das Gefäß (kebe 100) vollständig mit Erde gefüllt wird, müssen die mitgelieferten Eisenteile an den entsprechenden Stellen gesetzt werden, um zu verhindern, dass der Artikel aus der Form gerät. **Falls der Kasten oder Kübel umgestellt werden soll, muss dieser beim Schieben oder Ziehen im Bereich der Ecken (und nicht im Bereich der Seitenwände) angefasst werden.**

Para un mejor uso, es preferible preparar el macetero o la maceta kebe de la siguiente manera:

A - apoye una capa de tejido no tejido (TNT) en el fondo interno del macetero  
B - coloque una capa de aproximadamente 3/4 cm de arcilla expandida  
C - coloque otra capa de tejido no tejido (TNT) encima de la arcilla expandida  
D - disponga tierra de buena calidad y plantas  
E - antes de llenar completamente con la tierra, coloque los hierros suministrados en los lugares adecuados para evitar deformaciones (kebe 100). **Cualquier desplazamiento del macetero o de la maceta debe hacerse arrastrando o empujando el artículo agarrándolo de las esquinas (no de la parte central o de los lados).**

# Kit riserva d'acqua

## Water reserve kit

La collezione Style vi propone una soluzione semplice ed intuitiva mettendo a vostra disposizione un pratico kit per dotare i vasi di un'utile riserva d'acqua. Grazie ad una griglia ed all'argilla che rilascia lentamente l'umidità all'interno del vaso, le piante possono ricevere l'acqua necessaria dall'ampio bacino sottostante, diventando autosufficienti per svariati giorni. L'unica cosa di cui vi dovrete preoccupare sarà quella di controllare di tanto in tanto il livello dell'acqua nell'indicatore.

The Style collection offers a simple and intuitive method by providing an easy-to-use kit for fitting pots with a very practical water reserve. The grid and clay slowly release moisture into the pot so the plants receive an adequate amount of water from the large container underneath, which makes the pot self-sufficient for several days. The only thing you have to remember is to check the water level indicator every once in a while.

Die Style Kollektion bietet hierfür eine einfache Lösung für Sie in Form eines praktischen Kits für eine Wasserbevorratung. Dank eines Einsatzes und eines speziellen Wasserstandsanzeigers/Einfüllstutzens, der nach und nach die Feuchtigkeit in das Gefäß abgibt, können sich die Pflanzen über mehrere Tage aus dem Reservoir bedienen. Sie müssen lediglich von Zeit zu Zeit den Wasserstandsanzeiger kontrollieren.

La colección Style le propone una solución simple e intuitiva poniendo a su disposición un práctico kit para dotar a la maceta de una útil reserva de agua. Gracias a una rejilla y una arcilla que proporciona lentamente la humedad en el interior de la maceta, la planta puede recibir el agua necesaria del depósito, abasteciéndose durante varios días. La única cosa que debe preocuparle será la de controlar de vez en cuando el nivel del agua en el indicador.

La collection Style vous propose une solution simple et intuitive en mettant à votre disposition un kit pratique pour équiper les pots d'une réserve d'eau utile. Grâce à une grille et à une argile qui diffuse lentement l'humidité à l'intérieur du pot, les plantes peuvent recevoir l'eau nécessaire du réservoir sous-jacent, devenant autonomes pour plusieurs jours. L'unique chose dont vous devrez vous préoccuper sera de vérifier de temps en temps le niveau d'eau sur l'indicateur.

# Stabilità

# Stability

1. Per dare una maggiore stabilità al vaso, si consiglia di togliere il tappo filettato dal fondo del vaso e riempire l'interno con sabbia oppure ghiaia.

2. In caso di esposizione al sole, per evitare che la pressione all'interno del vaso provochi modifiche nella forma, si consiglia di praticare dei fori nella parte superiore interna del vaso, consentendo così il passaggio dell'aria.

1. To give more stability to the pot remove the threaded plug from the base and fill up with sand or gravel.

2. To prevent the pressure inside the pot from altering its shape, we recommend drilling some air vent holes around the top.

1. Um dem Pflanzkübel eine bessere Stabilität zu geben, wird empfohlen, den Gewindestopfen vom Boden des Topfs zu entfernen und das Topfinnere mit Kies zu befüllen.

2. Damit der Druck im Inneren des Gefäßes keine Änderungen der Form verursacht, wird empfohlen, Löcher in den oberen Teil der inneren Wand zu bohren, sodass die Luft zirkulieren kann.

1. Si se desea dar una mayor estabilidad a la maceta, se aconseja quitar el tapón rosulado del fondo y llenar la parte interna con gravilla.

2. Para evitar que la presión dentro de la maceta provoque cambios en la forma, se recomienda perforarla en la parte superior interna de la misma, permitiendo así el paso del aire.

1. Pour donner plus de stabilité au pot, il est conseillé d'enlever le bouchon fileté du fond du pot et de remplir l'intérieur de gravier.

2. Afin d'éviter qu'une pression ne crée des déformations, nous vous conseillons de faire des trous dans la partie supérieure intérieure du pot, permettant ainsi une évacuation d'air.

**Ai sensi della Direttiva 2012/19/UE, il prodotto, alla fine della sua vita utile, non deve essere smaltito come rifiuto urbano.**  
According to the Directive 2012/19/UE, once the device life time is ended, it must not be disposed as urban waste.

**Tutte le apparecchiature elettriche sono conformi alle direttive 2011/65/UE sulle Restrizioni d'uso di alcune sostanze pericolose (RoHS), recepite in Italia con il D.Igs 04/03/2014 n.27.**

All electric equipments meet the Directives 2011/65/UE about the Reduction of the use of certain Hazardous Substances (RoHS), which came into force in Italy with D. Igs 04/03/2014 n.27.

**Avvertenze - Warning:**

- Tutte le lampade presenti in questo catalogo dispongono di un kit luce già installato.
- In caso di sostituzione della lampadina, assicurarsi che la presa di corrente sia scollegata.
- Collegare la spina dell'apparecchio in una presa collocata in un luogo protetto dalla pioggia e dagli spruzzi d'acqua.
- L'articolo "Sfera a sospensione" che monta il kit a sospensione (A4596), se utilizzato all'esterno, dovrà essere posizionato in luogo coperto.
- Se il cavo flessibile esterno di questo apparecchio viene danneggiato, deve essere sostituito esclusivamente dal costruttore, dal suo servizio di assistenza, o da personale qualificato equivalente, al fine di evitare pericoli.
- Nelle versioni provviste di interruttore sul cavo di alimentazione, collegare la spina dell'apparecchio sotto una presa comandata da interruttore.
- Si consiglia l'utilizzo e/o l'installazione dei prodotti luminosi su superfici/pavimentazioni non solide (sabbia, terra, erba, sassi, ghiaia, ecc.). Inoltre, i prodotti luminosi non dovranno essere installati in prossimità (adiacenti e sullo stesso piano) di piscine e/o ambienti d'acqua.
- Gli oggetti luminosi, se allestiti con terra, piante e/o vasi, dovranno essere fissati al suolo con i nostri sistemi di ancoraggio, ove previsti.
- I vasi light outdoor sono dotati di fori di drenaggio all'interno e sul fondo del vaso, oppure di canaletta di scolo. Entrambe le soluzioni servono per favorire la fuoriuscita dell'acqua in eccesso.
- Euro3Plast S.p.A. declina ogni responsabilità per danni causati a cose o a persone da un uso improprio del prodotto.
- All the lamps included in this catalogue are supplied with a light kit already installed.
- Before replacing a bulb make sure that the power plug has been disconnected.
- Connect the plug of the appliance to a power outlet that is located in a sheltered position, protected from rain and water splashes.
- If used outdoors, the article "Suspended light sphere" that mounts the suspension kit (A4596) must be installed in a covered context.
- If the external flexible cable of this appliance is damaged it must be replaced by either the manufacturer, the manufacturer's customer assistance service or by equivalent qualified personnel, in order to prevent possible hazards.
- For models that are not equipped with an inline on/off switch, connect the plug of the appliance to a switch controlled outlet.
- The use and/or installation of illumination devices on instable surfaces/floors or pavement (sand, soil, grass, stones, gravel, etc.) is discouraged. Neither must illumination devices be installed near (adjacent to or on the same level as) swimming pools and/or other water environments.
- If light articles are set up with earth, plants and/or vases, they must be secured to the ground with our anchoring systems, where provided.
- The light outdoor pots have drainage holes inside and on the base, or a drainage tube. Both solutions are to allow excess water to drain away.
- Euro3Plast S.p.A. cannot accept liability for any damage caused to things or persons by an incorrect use of the product.
